CONTEMPORARY FURNISHINGS

2017

Quick Ship Program

The Oios Metals *Quick Ship Program* is designed to streamline the selection and quoting systems for easy processing and shipping. Dining pedestals must be black. The dining can be ordered with either straight or scribble grind patterns (random unavailable) and can be finished with any of the five finishes displayed below. See the [Quick Ship Program Price List](#) for details.

•••• Finishes ••••

Metal Finishes

We have researched & refined multiple techniques for creating the 30+ finishes we offer. Most of our finishes are created using a patina & baking type process.

Baking patina on carbon steel creates a beautiful and exotic finish. Unpredictable variations in the metal lead to gorgeous variations in the color produced.

Finishes can be matched closely but NOT PRECISELY. The samples depicted here (and the *Oios Metal Sample Pack*) are to act as general references, not as pantone swatches. Our finishes are artfully applied, just as our furniture is artfully crafted.

Palette 1 Colors

Base and Leg colors are powder coats applied to the metals surface. These powder coats are 100% opaque which covers any grind patterns underneath.

Base and Leg colors are mostly flat in texture & neutral in color. Aesthetically - these colors are designed to help frame and accentuate the top surface P2 & P3 colors they are paired with.

For example, say you have a piece of art that you are trying to build a dining set to visually match. If your painting has a black frame, Textured Black could be a good table base / leg color choice as to complement other accenting elements in your dining space (just as a frame complements picture).

(Bases & Legs)

Palette 1

Palette 3 (Stainless Steel as shown)

Grind Patterns...

All Palette 2 and 3 products comes with a layer of "pickling & oil" in order to help preserve the metal from rust. Our finishing process requires the removal of this layer by grinding its surface which allows the patinas to react properly with the metal surface. Scribble, Random and Straight Steel are made from stainless steel.

Since the patinas are translucent, the grind pattern used to remove the oil becomes an aesthetic element to the surface. *Scribble*, *Random* & *Straight* are the basic grind patterns used on all palette 2 & 3 colors. They are then sealed, with a clear *armor* coat, to create the classic *Oios Metals* look (as seen above).

Just like the construction & patina processes, grinding is an artful process done by hand and final products can vary in appearance.

Palette 2 (Top Surface Colors)

Once the grinding process is complete, there are 20+ colors to choose from for the focal color of your piece. We can do any grind pattern with almost any finish, but certain finishes do work better with certain grind patterns.

Palette 3 (Jewel Colors)

Palette 3 Jewel Colors have one additional layer of patina and are baked an additional time. This technique creates the stunning finishes seen above. Sapphire is our leading Palette 3 color.

Armor Coating

Finally, all Palette 2 & 3 colors are sealed using a clear *Armor* coating. This is what gives our product its unique shine and incredible durability. Read more about our product durability on our product care page.

P3 Satin Finish

Low luster interior use only. Not as durable as our armor coating.

This illustration shows the **Armor Coating** zoomed in. At this scale you can see the peaks and valleys.

The peaks take the brunt of the friction while the valleys and metal surface remain untouched.

Design Patterns

(On Stainless Steel Only)

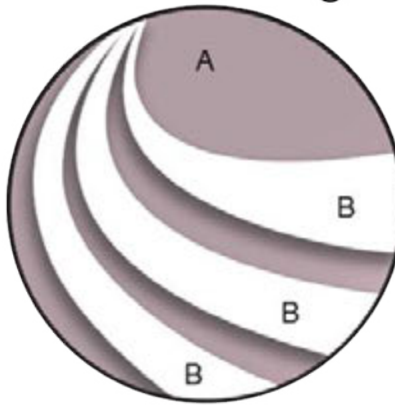

Volaré Extension Dining Set

Scribble / Stiletto / Black Diamond / Armor

Scribble Steel

Stiletto Design

Black Diamond

We have several patterns that can be printed on your table's surface. These patterns can help complement and accentuate similar visual elements in your surrounding decor. The graphical chart on the right shows all the standard patterns we offer. The areas shown in gray ("A") represent the palette color you have chosen for your table (The example above showing *Black Diamond*). The white areas ("B") represent the steel grind pattern that will show through. Design Patterns are only available in Stainless Steel.

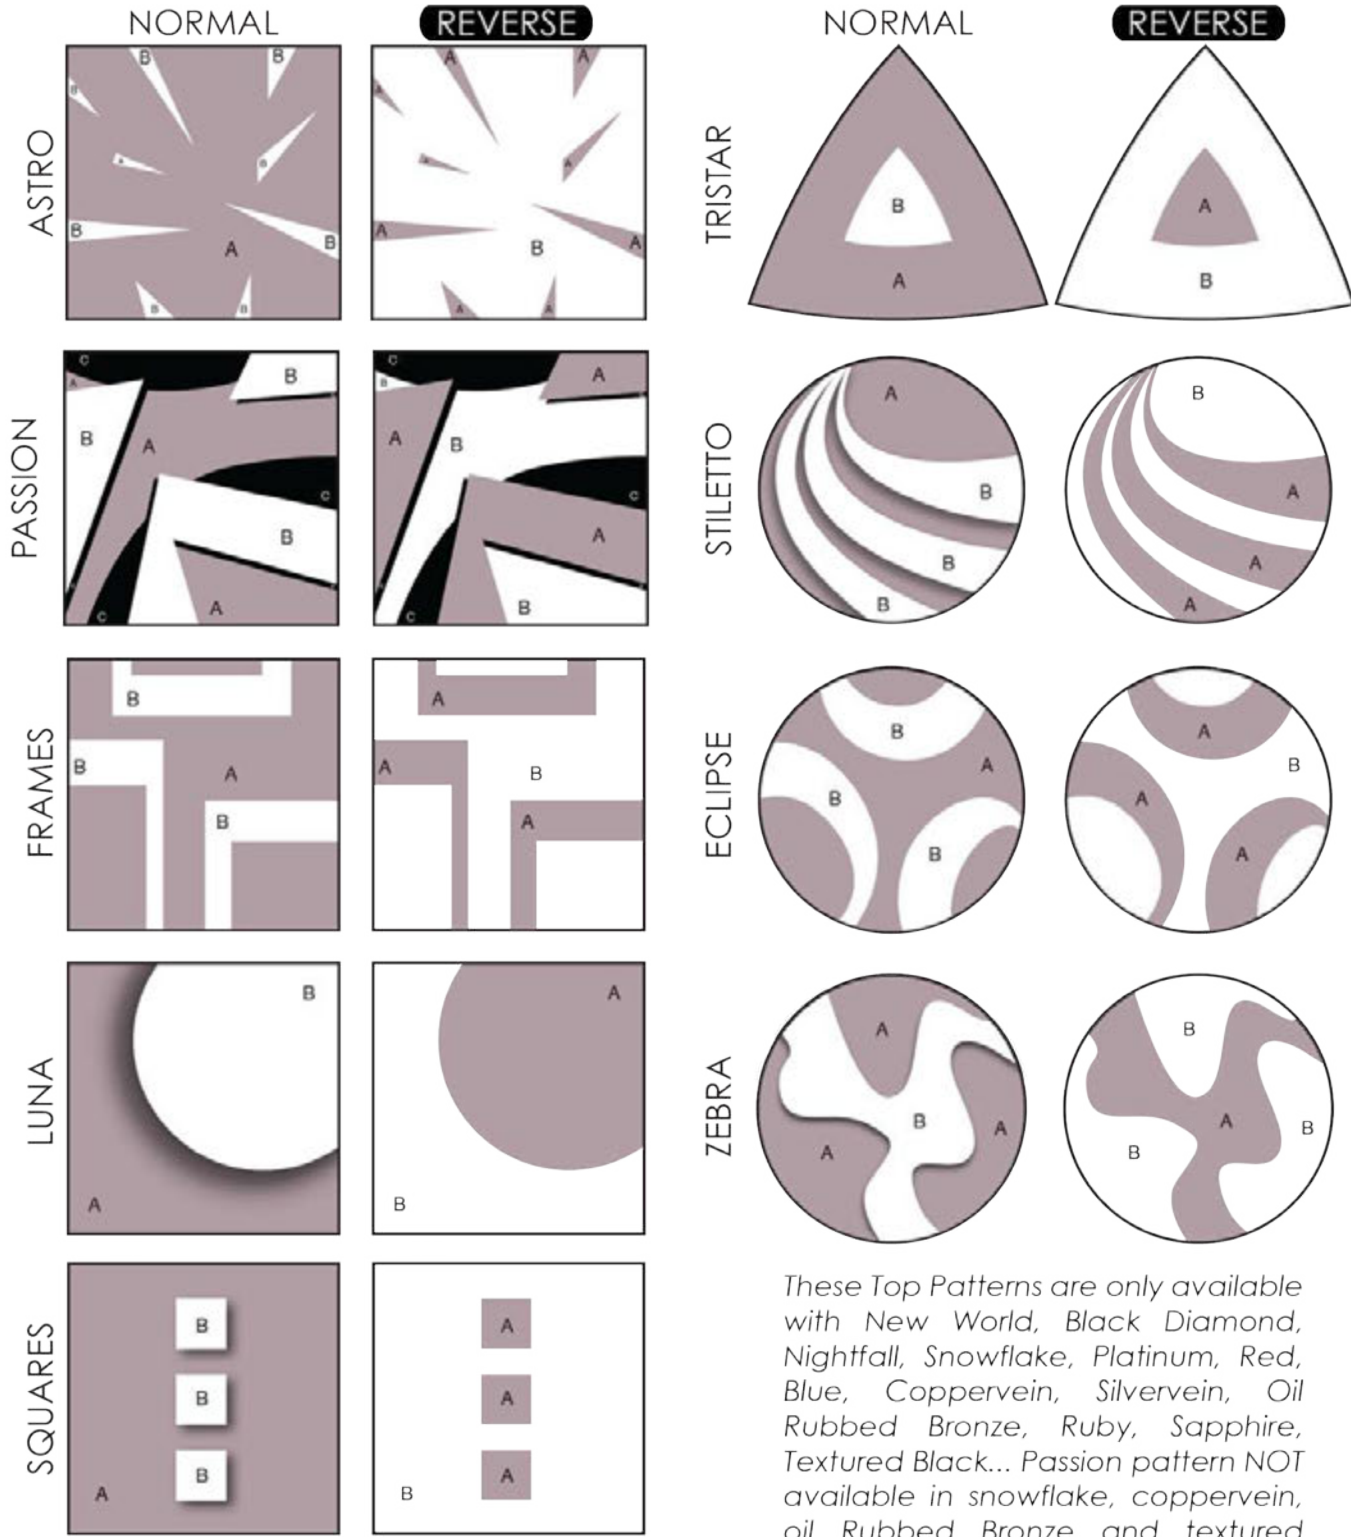

Normal

Reverse

(On Stainless Steel Only)

These Top Patterns are only available with New World, Black Diamond, Nightfall, Snowflake, Platinum, Red, Blue, Coppervein, Silvervein, Oil Rubbed Bronze, Ruby, Sapphire, Textured Black... Passion pattern NOT available in snowflake, coppervein, oil Rubbed Bronze and textured black.

A = Palette Color **B** = Polished Steel **C** = Black = Drop Shadow

Oios Bases & Legs

1. Rectangle Leg 2. N/A 3. Tapered Leg 4. Diamond Pedestal Base 5. Round Pedestal Base 6. T-Base 7. Round Pole Base 8. Cross Base 9. N/A 10. Square Pedestal Base 11. Plinth Base 12. Rectangle Pedestal Base 13. Rectangle Boat Base 14. Structure 1 Base - (occasional tables only) 15. Structure 2 Base 16. Structure 3 Base 17. Epos Base

14) Structure 1 Base (Console Table Only)

15) Structure 2 Base

16) Structure 3 Base

17) Epos Base

Legs provide the most support and give the lightest look for our rectangle and square dining tables. Legs could be a good option depending on your seating situation. If seating area around your table is more confined, a pole or pedestal system may be a better option.

Poles can be very utilitarian in spaces where leg room is needed. Typically, our pole bases are used in commercial settings but can also work well in an informal residential atmosphere.

Pedestals give tables a distinguished and classy look. Designed for maximum seating capacity, pedestals add unique aesthetics to the traditional dining set. We make several different styles of pedestals and offer a wide variety of pedestals through our custom ordering program.

Frame Bases, like Structure or Epos, provide exceptional support alongside a light and elegant look. The Structure models are offered with a square accent piece designed to complement the table top.

Metal Table Top Edges

1.75"

Displayed to the left are the standard table edges we offer (not to scale).

3"

Thicker or thinner edges can create dramatically different effects depending on the look you are trying to achieve. A thin top can make a table feel lightly suspended while displaying as much of the base elements as possible. Thick edges can give a solid and sturdy feel like the Majestic Edge Coffee Table shown below.

5"

Some table top sizes demand a specific size edge in order to maintain a sturdy structure. It is good to think about the pieces functionality, as thicker edges rarely work when there are drawers or where leg room is needed.

5"

Square Majestic Coffee Table
Majestic 5" Edge
Top: Scribble / Steel / Armor
Base: Plinth - Textured Black

Metal Table Top Edges

Our **Luxé Edge** on table tops deliver a sleek and contemporary feel. Working with both leg and pedestal bases, this edge provides a distinct crowning transition from table surface to floor.

Our new **Beveled & Fire Edges** give another unique look. Only available in 3" inch height.

Round Tops

Round Dining Set

Standard 1.75" Edge
Top: Scribble / Tuscan / Armor
Base: Textured Black
54" Round x 30"h
CH: 230-01

Standard Sizes

Above are our standard sizes for round table tops. Tables **72" - 96"** above **will require a 3" lip**. Table Tops over **72"** cannot have Design Patterns, Stainless Steel or Platinum finish.

Round Tops

There are hundreds of possible combinations in Grinds, Colors & Top Patterns. Here are thirteen.

- 1) Scribble Steel 2) Random Steel 3) Straight Steel 4) Scribble / Amethyst 5) Random / Purple 6) Scribble / Provance 7) Barracuda 8) Scribble / Red / Passion 9) Straight / Tuscan 10) Straight / Black Diamond / Eclipse 11) Scribble / Blue / Eclipse 12) Scribble / New World / Zebra

Round Dining Table

Commercial Projects

We have completed thousands of commercial projects since 1998. This is the area where our custom outfitting shines as we are capable of creating perfectly fitted pieces for any commercial atmosphere. Our product's unique shine and durability make it a perfect surface for the wear & tear that commercial settings produce. Plus, our products install easily so your down time is minimized.

Call our **Commercial Sales Department** today to set up an appointment to discuss how the Oios Metals Brand can work with your commercial space **(303) 778-0925**

This counter top, made for Colorado Mountain Brewery, is done in three pieces and outfitted with our *Majestic Edge*.

Below is our Column Counter Top. This design can function well with columns in your dining areas. Great for Restaurants!

Sub Tops

We recommend using 2 pieces of 3/4" OSB Board.

Paper Template

In certain circumstances we can accept paper templates to use for counter top production. This works well for projects outside of the state of Colorado.

COUNTER TOP
84" x 5

Graphics

Printing

Along with the various painted Top Patterns, we also offer custom logo printing; perfect for signs and logos of virtually any size...

Square Dining Table

Scribble / Logo / Steel / Armro
62" x 62" x 30"h

Logo
Printing
requires **Vector**
based graphic files.

Our in-house graphics department can assist with creating graphics suitable for this process.

Some printing limitations may exist. Please contact your dealer for more details on the logo process.

Also...

Dye Sublimation

We are capable of printing **Raster** graphics from our Dye Sublimation printer. This method opens up the full color spectrum of CMYK printing.

We are capable of printing images up to a 36-inch radius which transfer beautifully to our signature metal finishes.

Note: We recommend that this product only be used on indoor metal surfaces as the print is subject to erosion from sunlight.

OIOS METALS

CONTEMPORARY FURNISHINGS

Monster Polish for Metal surfaces

Oios Monster Polish is formulated using Nanotechnology and is designed to penetrate, strengthen, and maintain our durable Metal Armor finishes. This product seals all the surfaces from moisture, and UV sun rays. It is specifically designed to help reduce Scratching, Rusting and Delamination of our finish.

This unique restoration liquid adds Shine, long-term clarity and provides deep cleaning protection. When used once weekly it significantly repels moisture from water, dirt, grease, wax, alcohol based liquids, etc. Citrus, red wine, and even permanent inks from marker can be removed!

Just spray on, wipe into the surface as a damp coat, let set for 30 seconds... wipe off to a radiant finish! Oios Metals – Made in the USA!

Warning: Use in well ventilated area. Eye Contact: Flush eyes with water, if irritation persists, seek medical attention. Skin Contact: Wash with soap and water.

OIOS METALS – 2017

General information and Product Care Sheet

UNIQUE FINISHES:

Oios offers over 30 Exotic metal finishes. Everything we make is unique in character and artfully handmade. Our custom designs and finishes are never exact duplicates and may vary. Brightly lit areas help enhance the beauty and ever changing dimensional metal surfaces. The Armor finish is specifically designed to be our most durable finish. It will outperform most Wood and Laminate surfaces in high traffic areas. Our Armor finish is designed not to crack like stone or glass surfaces. It is scratch resistant only (not scratch proof), and very resilient against UV fading from the sun, staining from most chemicals, food, ink, wine, and alcohol, and can withstand very hot temperatures up to 300 degrees.

Maintenance: MONSTER POLISH (Available for Purchase):

To maintain the brilliance of our products, we recommend using a soft cotton cloth and monster polish. Just spray on, wipe into the surface as a damp coat, let set for 30 seconds... wipe off to a radiant finish. This unique restoration liquid adds long-term clarity and provides deep cleaning and protection. When used once a week it significantly repels water, dirt, grease, wax, alcohol based liquids, bleach, ink, and food products including citrus fruit items, red wines, and even permanent ink marks can be removed. Do not use! Knives for cutting - food preparation, sandpaper, drag sharp objects, rough finished cook ware, ceramic pottery, serving trays etc. as they will scratch the surface as an abrasive. If you use these items they require felt pads to protect your table's or countertops finish.

REPAIRS: (Kit located under table)

In the event a surface is rough or prickly in areas we suggest using the flat edge of a quarter or coin and rubbing it over the rough areas, this works well to smooth out areas which are not scratched. If an area becomes lightly scratched you can use clear spray gloss lacquer or fingernail polish to touch up a damaged area as you would repair a wood surface. We have included 2000 grit sandpaper and rubbing compounds for minor repairs. Use the sandpaper (in a circular motion) with small amounts of water, making sure not to stay in one area for very long. Excessive or hard sanding will soften the surface and may create low points or remove all the finish causing failures. We suggest you use one hand to locate the rough spots, with the other hand use sandpaper lightly for about 2 to 3 seconds, then recheck the surface. Some areas may require this several times. When the surface is smooth, use the enclosed polishing packets (#3 first, then #2) and buff to re-polish. Electric buffing is not recommended and will void the warranty. Do not use ammonia based cleaners, Wax, Windex, etc. or abrasive cleaning agents, rough scouring-type pads, Scotch bright, etc., sandpaper, Unfinished plates, or display items - sharp objects etc. This will result in a loss of clarity and scratching the surface - damaging the product.

Note: Table leg and base installation: DO NOT OVER TIGHTEN NUTS AND BOLTS! They only need to be snug to function properly. Over tightening will result in damage of the tabletop surface and/or breaking of the bolt. When setting up or moving tables our products please lift, do not drag.

MANUFACTURERS WARRANTY: (Metal only)

OIOS METALS products carry a 1-year warranty on finishes for interior use only - protection from cracking, staining and delamination under normal use. A 10-year structural warranty exists for welds

and bolts from date of purchase. In the event a display or serving dish item has moisture trapped under a surface, i.e water from a plant, serving dish, wet towel etc, damage will occur. Outdoor finishes are available upon request and are limited to specific colors and applications. Improper maintenance from sandpaper and sharp objects will void the warranty (i.e. scratching, burning, dropping, dragging objects across surface areas, cutting or food preparation, excessive moisture, etc.). The Oios Warranty covers repairs or replacement of the damaged part only at our discretion. The Warranty repairs will be made to return your product to its original condition. Warranty does not cover changing finishes, style, or function of your item.

FREIGHT DAMAGE: Any damage or defects caused by freight must be noted on the Bill of Lading at time of delivery and reported to the carrier. Hidden damage must be reported within 72 hours of delivery to the Freight carrier. For any claims or additional information, please contact your authorized dealer.

RETURN POLICY: All items are custom made and all sales are final – no returns or exchanges. The warranty for defects covers product only and does not cover delivery or freight charges. The customer is responsible for any freight charges incurred to return product for repair.

SUSTAINABILITY: We are Green!

Our items are made to order to be the most sustainable items in the furniture industry! The metal we use is all 98% recycled steel. If bent it can be straightened; if broken or damaged it can be repaired or welded - and refinished to new condition to the existing color or can be changed to another! Re use it – Update it – Never throw it away. Our exotic finishes can be restored repeatedly. We only refinish our items here at the factory, not onsite.

CHAIRS:

1- Year Warranty on chair frames and workmanship - designed for residential use only. No warranty for stains or fabric wear. Commercial use to be determined upon specific style and frame.

CLAIMS:

For claims or additional information please contact your authorized dealer.

We hope you will enjoy our products for many years to come, as much as we love making them for you!

The Oios Metals Team
